CALACATTA SURFACES

2023

Glowstone Quartz Surfaces catering to diverse demand: of clients across the Globe respecting delivery deadlines and honouring its customers with quality products. The wide product range is available in slabs, and cut sizes with different style, size and finish. Glowstone evolves its range of surfaces to conquer the most demanding and innovative designs. Quartz slabs represent a natural and safe evolution, they coordinate our aesthetics and great flexibility, to offer new spaces dedicated to compliment the modern living. Quartz is one of the hardest minerals in nature, with a high level of resistance. It is crystallised silicon dioxide (SiO₂), which is usually white or transparent and can be found in other colours if it comes into contact with impurities during its formation.

DESIGN INSPIRATION

The wind, a patient artist, sculpts its masterpiece over eons, etching lines of beauty across the landscape. Each rise and fall, each sinuous curve, a testament to the artistry of nature. The dunes, like sentinels of time, stand tall and unyielding, guardians of a silent wisdom.

To draw inspiration from these lines of sand dunes is to tap into a wellspring of creativity that knows no bounds. It is to understand that even in the most barren landscapes, beauty and potential await discovery. It is a reminder that artistry is not confined to the strokes of a brush or the notes of a melody, but can also be found in the natural world's eloquent expressions.

DESIGN

INSPIRATION

In the enigmatic dance of charcoal lines, a world of boundless creativity unfurls. Each stroke, deliberate and yet seemingly spontaneous, breathes life into the canvas. The raw, smoky essence of charcoal manifests in the lines, creating a visceral connection between the artist and the medium.

In these monochromatic strokes, a symphony of contrasts emerges, as light meets dark in a delicate embrace. Shadows deepen, giving form to ethereal figures and intricate landscapes. Every line is a whispered conversation between artist and muse, a silent understanding woven into the very fabric of creation.
